1987 FLORIDA TRAFFIC ACCIDENT FACTS

TO: Governor and Members of the Cabinet

FROM: Leonard R. Mellon, Executive Director Leonard R. Mellon

---

I am pleased to forward the 1987 Florida Traffic Accident Facts Booklet for your review. This annual compilation of data on traffic accidents, fatalities, and injuries is a valuable reference for anyone concerned with highway safety - legislators, administrators, government planners, traffic enforcement officials, the media, and private safety interests.

Florida's safety record is good, despite our growing population and the number of tourists on our highways. Recent years' increases in traffic deaths and injuries are well below the rate of population gain.

I am pleased to report that the total number of Florida traffic accidents in 1987 dropped by nearly 1%. Fatal accidents increased by 1.5% while injuries dropped by about the same amount. The unfortunate fact remains that more than half of fatal accidents and about one-sixth of all traffic accidents are alcohol-related. We must continue working to clear our roadways of alcohol- and drug-impaired drivers.

I hope you find the report informative and useful. Please contact me or my staff if you need additional information.

LRM:pj

A law enforcement officer who is called to the scene of a traffic accident is required to investigate or file a written report of the accident when the reporting standards outlined in Section 316.066(3)(a), F.S. are met. The reporting standards outlined in this section are as follows:

Motor vehicle accidents resulting in death or personal injury;

Motor vehicle accidents in which one or more of the following conditions occur:

1. Leaving the scene involving death or personal injury *(Section 316.027 (2), F.S.)*;
2. Leaving the scene involving damage to an attended vehicle or property *(Section 316.061 (1), F.S.)*;
3. Driving while under the influence of alcoholic beverages, chemical substances, or controlled substances or with unlawful blood alcohol level *(Section 316.193, F.S.)*;
4. Rendering a vehicle inoperative to a degree which required a wrecker to remove it from traffic.

The information contained in this Traffic Accident Facts booklet is extracted from traffic accident reports meeting the above criteria.

Changes in the Florida law on reporting traffic accidents reduced the number of minor accidents reported to the Department, effective October 1, 1983. Figures based on **total** traffic accidents reflect that change. Data on traffic accidents involving the circumstances outlined above are not affected.
